In 1998, Boeing again

Online Library 737 Engine Fire Checklist

heavily revised the 737, with the 600, 700, 800 and 900 variants, designated 'NG' (Next Generation). These aircraft featured FADEC controlled CFM56-7 high-bypass turbofan engines, larger and more efficient wings (without winglets in some cases), a strengthened fuselage, revised avionics, and a higher cruise speed.
