A Guide To The Phenomenology

Exploring Phenomenology is the best work that I have seen on the market for a general introduction to pure and applied phenomenology. I have authored two technical works in phenomenology, and referred to this book time and again for general reference though it is for the general reader.

"This collection of essay is an invaluable guide to Hegel's Phenomenology of Spirit for graduate students and Hegel Scholars. As well as being a lucid and detailed commentary on the entire of the Phenomenology of 1807, it also offers original contributions, which on certain occasions challenge traditional interpretations or the received view."

The phenomenological method in the study of religions has provided the linchpin supporting the argument that Religious Studies constitutes an academic discipline in its own right and thus that it is irreducible either to theology or to the social sciences.

A Guide to the Phenomenology of Religion: Key Figures ...

Billing itself as a companion text for religious studies methodology courses, Cox's Guide presents the thought of a wide range of key thinkers whose work has contributed to the development of the 'phenomenology of religion'. One of the book's virtues is its inclusion of important but oft-overlooked figures who straddle the philosophy-theology divide: Albrecht Ritschl, Wilhelm Herrmann, A. G. Hogg, and Ernst Troeltsch, among others.

Robert Stern's commentary on Hegel's Phenomenology of the Spirit is another strong addition in the Routledge Philosophy Guidebook series. Even by the arcane standards of German idealism Hegel's Phenomenology is a notoriously difficult text, at once, both, beautifully poetic and frustratingly specious.

Routledge Philosophy GuideBook to Hegel and the ...

Phenomenology in business research focuses on experiences, events and occurrences with disregard or minimum regard for the external and physical reality. Phenomenology, also known as non-positivism, is a variation of interpretivism, along with other variations such as hermeneutics, symbolic interactionism and others.

introduction and overview to the Phenomenology of Religion through describing, analysing and evaluating the ideas of key thinkers in the phenomenology of religion. At the same, the author places the ideas of the key thinkers identified into historical and social contexts by examining the formative influences over their thinking and by indicating how their ideas have helped to create the debates at the core of religious studies today.

Guide to the Phenomenology of Religion | James Cox | download

Edmund Husserl was the principal founder of phenomenology—and thus one of the most influential philosophers of the 20th century. He has made important contributions to almost all areas of philosophy and anticipated central ideas of its neighbouring disciplines such as linguistics, sociology and cognitive psychology.
