Once the library has decided on a set of relevant issues for the survey, the work begins on crafting a short survey for the target

audience. Depending on the target audience, the survey may be distributed at the library, mailed to community members, or created for patrons accessing the library's web pages. Write Survey Questions

Questionnaires and Surveys - New Mexico State Library

Every library typically has three different types of online databases. An article database allows a person to search a list of thousands, sometimes even millions, of various newspapers, journals and magazines to locate an article on any given subject. Some of the various articles that one may find in such an article database are full text articles while some searches may abstracts of articles. Other times, a search may simply yield a citation instead of a full text article or an article ...
